

# Legislative Briefing: The Green Mountain Care Board's Role in Health System Reform

November 20, 2013

# Summary

On November 20, 2013, Green Mountain Care Board Chair Al Gobeille joined other State health reform leaders to present a brief verbal update as part of the Vermont General Assembly's "Legislative Briefing Session."

Gobeille's update focused on the role of the Board, with an emphasis on one particular role: "Evaluation." This role has not been discussed as broadly as the others and does not yet have resources assigned to it. Gobeille assured Legislators that they could expect more discussion of this role going forward.

Gobeille's presentation was based on the following diagram of GMCB roles.
